

ACWA invites you to a special screening of

After the Apology

A documentary film

With Guest Speaker
Professor Larissa Behrendt

"I want the audience to feel for the people whose stories we hear. I want them to understand what underlying issues are leading to the epidemic rates of child removal. I want them to be angry, ask how can this be happening today and know they can help Aboriginal people and their organisations to make a difference. After The Apology is a call to arms."

Professor Larissa Behrendt Director/Writer of After The Apology
